Graffiti Watch Update

Beginning Tuesday, February 16, 2010, West Valley City's Community Preservation Department will make available to all residents of West Valley City a free graffiti removal kit. The Graffiti Safewipes Citizen's Pack includes three sets of graffiti removal wipes and a pair of gloves in a convenient package for residents to remove graffiti on the go.

"The graffiti removal kit is a perfect tool for our residents to carry with them as they travel throughout their neighborhoods and throughout the City," says Community Preservation Director Layne Morris. "Our residents are an excellent resource in the fight against graffiti, and we're hoping to empower them to remove graffiti when they see it."

The graffiti removal kits are available to residents of West Valley City at 3 locations:

- Community Preservation Department Headquarters and Animal Shelter (4522 West 3500 South)
- West Police Substation (5415 West 3100 South)
- Public Relations & Neighborhood Services office of West Valley City Hall (3600 Constitution Blvd.)

These kits enhance the other materials currently made available to residents to help combat crime in their neighborhoods. Other supplies made available from Officer Jacob Shafizadeh will still include, paint, rollers, pans, etc. Contact Officer Shafizadeh for these materials.
